OFFICIAL IMPORTER

ENERPAC 

24/7 HYDRAULIC FIELD SUPPORT

Service & repairs delivered onsite; when uptime cannot wait.

When hydraulic equipment fails on site, every minute matters.

Delays create safety concerns, operational disruption, and project setbacks. Kiloton's Field Support team provides Onsite service & repairs and technical support directly at your operation, ensuring the correct action is taken quickly, safely, and to OEM standards.

What Our On-Site Field Support Provides

ONSITE BREAKDOWN RESPONSE

Onsite attendance for:

- Cylinder failures.
- Pump failures.
- Leaks and seal failures.
- Hose and coupling faults.
- Tool performance irregularities.

ONSITE REPAIRS FOR HYDRAULIC EQUIPMENT

We repair:

- High-pressure cylinders (up to 100 ton).
- Pumps (manual, electric and air).
- Bolting and torque tools (up to 50 000 Nm).
- Valves, manifolds and pressure lines.
- Hydraulic pullers.
- Enerpac and other major brands.

Repairs follow OEM-compliant standards.

ONSITE TESTING, CALIBRATION & VERIFICATION

Technicians can:

- Test hydraulic function.
- Identify pressure irregularities.
- Verify stroke and performance.
- Validate pump output.
- Detect early-stage component failures.

ONSITE PRODUCT DEMONSTRATIONS & APPLICATION ADVICE

Includes:

- Correct tool selection.
- Setup assistance.
- Safe operating procedures.
- Pressure management.
- Application-specific load handling.

ONSITE LOAD TESTING (UP TO 100 TONS)

For equipment that cannot leave site:

- Load tests.
- Pressure checks (2 800 Bar / Bolting 50 000 Nm).
- Performance verification.

Certification provided where required.

ONSITE INSPECTIONS & SAFETY ASSESSMENTS

Identifies:

- Seal fatigue.
- Contamination issues.
- Incorrect fittings.
- Overloading.
- Corrosion or wear.
- Operator misuse.
- Safety risks.

When to Call Field Support

- Equipment failure onsite.
- Urgent repairs required.
- Tools cannot be removed from site.
- Safety concerns or irregular behaviour.
- Before critical lifts or bolting jobs.
- After pressure fluctuations.
- When downtime is not an option.

What You Can Expect

- Certified hydraulic specialists.
- Fast response.
- OEM-compliant methods.
- Safety-first approach.
- Transparent reporting.
- Nationwide and regional support.
