TRAINING & SAFETY ENABLEMENT

Smarter operators. Safer sites. Better hydraulic outcomes.

Correctly trained operators:

- Reduce tool misuse and prevent avoidable failures.
- Improve onsite safety.
- Extend equipment lifespan.
- Strengthen compliance and audit readiness.
- Increase productivity through better decision-making.

Who should attend: Operators, technicians, safety officers, supervisors, foremen, maintenance teams, engineering personnel and new hires.

MAXIMISE UPTIME. MINIMISE DOWNTIME.

Supporting your operation from acquisition to decommission.

Training Programmes

Enerpac Product Training

Understand capabilities, limitations and correct application of Enerpac hydraulic tools. The training includes:

- Tool selection guidance.
- Application-specific usage.
- Correct assembly and setup.
- Safety considerations.
- Maintenance basics.

Hydraulic Safety Training

Operators learn:

- High-pressure safety principles.
- Load handling best practices.
- Correct hose, valve and fitting use.
- Pressure risk mitigation.
- Inspection checklists.
- Identifying unsafe conditions.

Operator Skill Development

Hands-on training focused on:

- Correct operating techniques.
- Preventing damage from misuse.
- Recognising tool behaviour changes.
- Reducing premature wear.
- Safety demonstrations.

Inspection and Maintenance Training

Teams learn to identify issues early:

- Daily / weekly inspection routines.
- Seal, hose and connection checks.
- Cleaning and storage.
- Early failure detection.
- Proper care to extend tool life.

Practical and On-Site Training

Delivered:

- On-site.
- At Kilaton branches.
- In classroom environments.
- Through hands-on demonstrations.

The practical and on-site training can be customised to your specific tools, applications and environments to ensure the best training outcomes.
